Greg Adams, JH/SH Principal
Amber Dolliver, Elementary Principal
Dallas Sweet, Asst. Prin./Act. Dir.
Jon Squier, Student Services Dir.
Troy Pritchett, Dir. Of Technology

GOVERNING VALUES / BELIEFS

The mission of the Malcolm Public Schools is based upon the belief that:

- Students are our first priority
- Each student is unique and has infinite value
- Education is dynamic and evolving
- A positive learning environment enhances learning
- High expectations promote higher achievement
- Honesty and integrity are essential to building trust
- Individuals are responsible for their own actions
- Our school is accountable to the community
- Education is a shared responsibility of the individual, family, school and community
- Excellence is worth the investment

TO: MALCOLM PUBLIC SCHOOL PARENTS AND PATRONS:

Preparing a Child to Become a Productive and Responsible Citizen

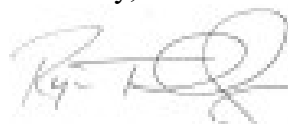

This report is submitted to the patrons of Malcolm School District #148 as an annual report in accord with accreditation rules of the Nebraska Department of Education. This Annual Report is a compilation of many facts, which are intended to provide parents and patrons of the Malcolm Schools with information on student achievement, school system performance, and district resource allocation and expenditures. We are very proud of the accomplishments and achievements of our students and staff. We are thankful for a progressive thinking and supportive Board of Education and school community. Not only is it important for our community to have accurate and relevant information about our schools, it is also very important that you are involved in the educational process.

The original mission statement and governing values were first developed in 1995/96 by a group of 28 district patrons; in 2002 and 2007 the mission and values were affirmed during the required State review process for school improvement. In 2012, patrons, parents, teachers, administrators and school board members worked together in developing a new mission and set of values—seen on page 1. We are currently involved in a similar process. Due to the pandemic, expected completion has been delayed until sometime during the 2021 calendar year. We are excited about this process and plan to affirm or update the mission statement, set of values, and strategic plan.

The Malcolm Public School is a quality school system with a quality staff. This district has been fortunate through the years to have the support of the community patrons in every aspect of district growth and change. **It is our mission, in partnership with our community, to provide an educational experience that maximizes the potential of each student to become a productive and responsible citizen.**

This report attempts to provide a variety of information about Malcolm Public School's operations, enrollment, financial status, district demographics, and achievement highlights. It includes examples of how we fared in giving our students the critical skills they need to be productive citizens in our society. While this report has been prepared as a comprehensive picture of education in this district, we realize that the total picture cannot be accurately represented in percentages, numbers, and charts. I encourage you to read the report. If any questions arise, please feel free to contact the superintendent's office at 796-2151. This is an interesting time in education as we are experiencing many changes in local, state and national education requirements. Local, state, national, and now international challenges face us each day as we prepare our students for the world of tomorrow. There are and will be, many opportunities for you to become involved in your school. You and your participation are always welcomed at Malcolm Public School.

Sincerely,

A handwritten signature in black ink, appearing to be 'R. R. R.', is written over a faint, illegible printed name.

Ryan Terwilliger
Superintendent of Schools

DISTRICT DESCRIPTION

The Malcolm School District (#148) comprises approximately 85.3 square miles in Lancaster and 2.6 miles in Seward County. The district is made up of the communities of Emerald, Malcolm, and the surrounding rural areas. The district is organized as a PK-6, 7-12 educational institution in one building located just north of the Village of Malcolm.

Malcolm Public School is classified as a Class III (PK-12) district by the Nebraska Department of Education. The Nebraska School Activities Association, for purposes of student activities and athletic competition has classified Malcolm, as a Class C school. Malcolm Public School is a member of the East Central Nebraska Conference for our activities program. Member schools include: Auburn, Elmwood-Murdock, Falls City, Freeman, Johnson County Central, Malcolm, Mead, Palmyra, and Weeping Water.

A six member, at-large Board governs the school district. Each member is elected for a four-year term. Board members serve without compensation. The Board of Education generally meets the third Monday of each month, with a standard starting time of 7:00 P.M. The meetings, which are open to the public, are traditionally held in the district boardroom located in the Central Administration Office at 10004 NW 112th. Current members of the Board of Education are: President Michelle Bice, Vice-President Tony Nutter, Secretary Chandler Kramer, Treasurer Bill England, member Amy Spellman and member Ed Swotek.

The Malcolm Public Schools Educational Foundation is a non-profit organization that operates separately but as an extension of the schools. The foundation was formed to provide for acceptance of tax-deductible donations from interested supporters of education. Donations in the form of cash, acceptable equipment and other donations have been accepted since the foundation was formed in the fall of 1991. The foundation also donates to worthwhile school projects throughout the year.

Each year, to assist graduates in furthering their education, scholarships are awarded to graduating seniors from the Malcolm Public Schools perpetual scholarship fund.

Faculty and Support Staffing:

The Malcolm Public School staff is constantly seeking ways to improve themselves, their knowledge of subject matter, and their instructional skills and techniques. Staff development is an important part of our adult learning process. Staff members gain additional experiences through in-services and workshops, as well as summer and evening college classes. Of the fifty-two (52) professional staff members employed, thirty-nine (39) or 75% faculty members have obtained at least a master’s degree. Ninety-one percent (91%) of the certified staff have earned college hours beyond their initial degree, and 100% have attended workshops or in-service experiences to support their instruction.

Forty (40) professional staff members have 10 or more years of educational experience. Fifteen (15) staff members have 20 or more years in education, and out of that fourteen, two (2) staff members have 30 or more years in education. There are thirty (30) faculty members who have been in the Malcolm Public School System at least 10 years, which provides continuity, stability and excellence in our programs.

Total # of Staff	92.5

Staff - Past and Future: Increased needs in special education resulted in MPS increasing its certified and non-certificated staff from 2008 to the present. In addition, we have methodically reorganized our middle school program to accommodate growth and enhanced instruction. As we have found ways to better engage middle level learners, we have also found a need for additional personnel. As a result, I think we can confidently say that the improved middle level learning experience has been well worth the investment. Overall, our consistently growing student population has required adding additional staff to multiple levels and disciplines—including specialists. Finally, before the 2018-2019 school year, we implemented a new full-time Pre-Kindergarten program.

CF: Certified Faculty											
NC: Non-Certified Faculty

Student Transportation: The transportation department currently includes seven buses (5 route buses and 2 spare/activity buses), 2 vans, 1 special education vehicle, and one pick-up truck. The numbers for 19-20 follow: *Route miles were impacted by COVID closure

Route miles for year: 32,909

Average miles driven per day: 253

Average miles driven per bus/per day: 50

Activity trip miles including field trips: 20,730

Students transported daily by this district: 245

Special Education Miles: 8,162

FINANCIAL INFORMATION

The financial information prepared for this portion of the report contains data from 2008-2009 through 2020-2021. The following information will show you a breakdown of expenses by categories and revenue by source. Included is a levy history that shows the tax levy by fund over the last twelve years. You will also be able to see the changes that have occurred in the district's assessed valuation. In addition, there is a table that will allow you to track State Aid changes that have occurred over the last several years.

Testing Results and Student Achievement

Throughout Nebraska, schools are using a variety of approaches for school improvement. For the last several years, Malcolm Public School has utilized the Nebraska Research Based school improvement process. This process uses a framework developed by curriculum specialists of Nebraska's Educational Service Units. The result of this process is the development of an action plan for improving learning. Generally, an action plan is implemented over a three to five-year time period. Our school improvement plan is designed to be continually evolving, extending and expanding. There is no end, only brief interruptions for evaluation of progress on Action Plans.

Prior to the 2009-2010 school-year, Malcolm Public School used the California Achievement Test as our national norm-referenced test, which provided us with one measure of student achievement. In 2009-2010 we moved to the NWEA-MAP testing for our national norm-referenced test, because it provided staff with more individual student feedback which would aid and improve instruction. No matter which norm-referenced test a school selects, it will only test between 20-40 percent of the instructed subject area (state standards). Norm-referenced testing should be just one of many ways a school assesses its students and its effectiveness teaching core curriculum.

NORM REFERENCE TESTING

NWEA MAP TEST – (Norm-Referenced Test given to 3rd-8th Grades)

The Northwest Evaluation Association (NWEA) MAP test is a norm-reference assessment that we have selected to measure the performance levels of our students. Unlike our former norm-referenced test, NWEA is a dynamic and adaptive test that uses interactive technologies which adjust the difficulty of the questions (in real-time) to match the students' current performance levels. We feel that this test reflects our philosophy of challenging students without overwhelming them. Because of this, we feel that we can eliminate a couple of testing variables that can have a negative effect on performance and data accuracy; frustration and/or boredom. As a result, we are confident that we are getting the most accurate data available from a norm-reference test.

NWEA MAP: 3rd, 4th, 5th, 6th, 7th, 8th GRADE NORM-REFERENCE TEST RESULTS

***No Scores for Spring 2020 due to COVID**

- RIT: a proprietary, equal interval measurement that allows us to track growth and compare regardless of the age of the students or the time they were tested
- ***No Scores for Spring 2020 due to COVID**

NEBRASKA STUDENT-CENTERED ASSESSMENT SYSTEM

The legislative sessions of 2007 and 2008 produced drastic changes in standards and assessment for Nebraska schools. The “new” system relied on a common test where individual school districts could, and were compared. The transition from the old system (STARS) to a newer system (NeSA) happened over a three-year period. In the 2009-2010 school year, reading was assessed using the NeSA format, while math and science continued to be assessed using STARS. In the 2010-2011 school year, reading and math were assessed using the NeSA format, while science continued with STARS. Finally, in 2011-2012, reading, math and science were all assessed using NeSA. However, in 2017-2018, we began a new era of state testing in Nebraska with the implementation of NSCAS (Nebraska Student-Centered Assessment System). NSCAS is administered by the Northwest Evaluation Association (NWEA)—the same company that gave us the MAP test, which we have been taking since 2009-2010.

-----------------	------

MALCOLM SCHOOL DISTRICT IMPROVEMENT PROCESS: In March 2017, the district hosted an external team of educators to review our school improvement processes and data. The overall purpose of an external team visit is to add an outside, objective view of the progress of the work accomplished by the school. This team was available to the school improvement curriculum committees to answer questions and if necessary, provide direction and guidance.

During the past five years the school district has focused its energies and resources on improving skills in reading comprehension, written communication, health and wellness, technology, visual and performing arts, as well as started processes to improve skills in math. Several commendations were given to the various curriculum committees, but more importantly, we received a few more recommendations that would further assist us in accomplishing our goals.

The school improvement process is always evolving and changing around student data. Following several years of analyzing student data, the school improvement teams felt the district had made acceptable strides on those goals, and attention could be moved to other areas. After a short review of past data analysis sessions and some professional dialog between committee members, the curriculum committee agreed upon the following objectives or goals for the next school improvement cycle.

- (1) All students 3-12 will improve writing skills with a focus on organization and ideas/content
 - (2) All students will improve skills in math.
 - (3) All students will improve skills in Health and Wellness, Technology and Visual and Performing Arts.
- ** Reading and written communication will be monitored, to see if our success can be maintained or improved, without being specifically targeted.

ACT (American College Test): *No Scores for 2019-2020 due to COVID

The ACT is the most common college entrance exam used in the Midwest. The **NON-STATE** administered test (given to all Juniors), is not required of all students but it is available to be taken by any student and it may be taken multiple times by the same student. The following graph compares State and Local ACT scores from 2014 through 2019. The possible score range is from 0-36. Students who take a minimum of Algebra 1, Algebra 2, and Geometry typically achieve higher ACT Math scores than students who take less than three years of math. In addition, students who take more advanced math courses substantially increase their ACT math score. Students taking Biology and Chemistry in combination with Physics typically achieve higher ACT Science scores than students taking less than three years of science courses.

NSCAS ACT: State administered test given to all 11th Graders

Level	Data Years	English Language Arts	Mathematics	Science
District	2018-2019	19.5	20.2	20.1
State	2018-2019	17.7	18.9	19

***No Scores for ACT 2019-2020 due to COVID**

SO WHAT DOES IT ALL MEAN?

This annual report is submitted to the patrons of this community to help them understand and evaluate their school system. It is through this understanding that we as a school district can take pride in our accomplishments and identify areas where we need to improve. We also realize the total school picture can't be told in just percentages and numbers. The district will be constantly reviewing and evaluating the processes and results we are receiving from our student body. The Malcolm School District will be continually striving to improve our educational programs and instructional delivery. Our goal as a school district is to give every child an opportunity to reach their fullest potential. If you have questions or concerns, please feel free to contact School Administration or any school personnel.
